BIOMETRIKA

FOUNDED BY
W. F. R. WELDON, FRANCIS GALTON AND KARL PEARSON

MANAGING EDITOR
E. S. PEARSON

ASSOCIATE EDITOR
J. DURBIN

VOLUME 50

1963

ISSUED BY
THE BIOMETRIKA OFFICE, UNIVERSITY COLLEGE LONDON

Printed in Great Britain at the University Printing House, Cambridge
(Brooke Crutchley, University Printer)

Contents of Volume 50

Memoirs and Miscellanea

PAGE

AITCHISON, J. Inverse distributions and independent gamma-distributed products of random variables 505

AMOS, D. E. Additional percentage points for the incomplete beta distribution . 449

AMOS, D. E. (*See* JOHNSON, N. L.)

ANDERSON, T. W. and GUPTA, S. DAS. Some inequalities on characteristic roots of matrices 522

BAILEY, NORMAN T. J. The simple stochastic epidemic: a complete solution in terms of known functions 235

BAKER, FRANK B. (*See* COLLIER, RAYMOND O.)

BANCROFT, T. A. (*See* LARSON, HAROLD J.)

BARTKO, JOHN J. and WATTERSON, GEOFFREY A. Inference on a genetic model of the Markov chain type 251

BARTLETT, M. S. and PLEASE, N. W. Discrimination in the case of zero mean differences 17

BARTON, D. E., DAVID, F. N. and FIX, E. Random points in a circle and the analysis of chromosome patterns 23

BARTON, D. E., DAVID, F. N. and MERRINGTON, M. Table for the solution of the exponential equation $\exp(b) - b/(1-p) = 1$ 177

BATSCHELET, EDWARD. Testing hypotheses and estimating parameters in human genetics if the age of onset is random 265

BENNETT, G. On the probability of large deviations from the expectation for sums of bounded, independent random variables 528

BLOM, GUNNAR. Some contributions to the theory of machine interference . . 135

BOX, GEORGE E. P. and DRAPER, NORMAN R. The choice of a second order rotatable design 335

BREITENBERGER, ERNST. Analogues of the normal distribution on the circle and the sphere 81

COLLIER, Jr., RAYMOND O. and BAKER, FRANK B. The randomization distribution of F-ratios for the split-plot design—an empirical investigation 431

COLTON, THEODORE. Optimal drug screening plans 31

COOPER, PAUL W. Statistical classification with quadratic forms 439

DANIELS, H. E. and ROSS, A. S. C. The Hausa problem and some approximations to the required probability 514

DAVID, F. N. (*See* BARTON, D. E.)

DRAPER, NORMAN R. (*See* BOX, GEORGE E. P.)

EWENS, W. J. Numerical results and diffusion approximations in a genetic process 241

FARLIE, D. J. G. The asymptotic efficiency of Daniels's generalized correlation coefficient 499

FIX, E. (*See* BARTON, D. E.)

GART, JOHN J. A median test with sequential application 55

GHOSH, B. K. On sequential tests of ratio of variances based on range . . 419

PAGE

GNANADESIKAN, R. (*See* WILK, M. B.)
GUPTA, S. DAS. (*See* ANDERSON, T. W.)
HALDANE, J. B. S. and JAYAKAR, S. D. The distribution of extremal and nearly extremal values in samples from a normal distribution 89
HANNAN, E. J. Regression for time series with errors of measurement . . . 293
HARTER, H. LEON. Percentage points of the ratio of two ranges and power of the associated test 187
HEXT, GEORGE R. The estimation of second-order tensors, with related tests and designs 353
HINKELMANN, K. and KEMPTHORNE, O. Two classes of group divisible partial diallel crosses 281
HOFLUND, OLLE. Simulated distributions for small n of Kendall's partial rank correlation coefficient 520
HUYETT, MARILYN J. (*See* WILK, M. B.)
JAYAKAR, S. D. (*See* HALDANE, J. B. S.)
JOHNSON, N. L., NIXON, ERIC, AMOS, D. E. and PEARSON, E. S. Table of percentage points of Pearson curves, for given $\sqrt{\beta_1}$ and β_2, expressed in standard measure 459
JOLLY, G. M. Estimates of population parameters from multiple recapture data with both death and dilution—deterministic model 113
KAPADIA, C. H. and WEEKS, DAVID L. Variance components in two-way classification models with interaction 327
KEMPTHORNE, O. (*See* HINKELMANN, K.)
KENDALL, M. G. Ronald Aylmer Fisher, 1890–1962 1
KENDALL, M. G. Studies in the History of Probability and Statistics. XIII. Isaac Todhunter's *History of the Mathematical Theory of Probability* 204
KUDÔ, AKIO. A multivariate analogue of the one-side test 403
KURKJIAN, B. and ZELEN, M. Applications of the calculus of factorial arrangements. I. Block and direct product design 63
LARSON, HAROLD J. and BANCROFT, T. A. Biases in prediction by regression for certain incompletely specified models 391
LEADBETTER, M. R. On series expansions for the renewel moments 75
LIEBERMAN, GERALD J. and MILLER, Jr., RUPERT G. Simultaneous tolerance intervals in regression 155
MARSAGLIA, GEORGE. Expressing the normal distribution with covariance $A+B$ in terms of one with covariance matrix A 535
MERRINGTON, M. (*See* BARTON, D. E.)
MILLER, Jr., RUPERT G. (*See* LIEBERMAN, GERALD J.)
MORRIS, K. W. A note on direct and inverse binomial sampling 544
MORRISON, DONALD F. Expectations and covariances of serial and cross-correlation coefficients in a complex stationary time series 213
MOSIMANN, JAMES E. On the compound negative multinomial distribution and correlations among inversely sampled pollen counts 47
NIXON, ERIC. (*See* JOHNSON, N. L.)
OKAMOTO, MASASHI. Chi-square statistic based on the pooled frequencies of several observations 524
PATIL, G. P. A characterization of the exponential-type distribution 205

PAGE

PEARSON, E. S. Some problems arising in approximating to probability distributions, using moments 95
PEARSON, E. S. Comparison of tests for randomness of points on a line . . 315
PEARSON, E. S. (*See* JOHNSON, N. L.)
PLEASE, N. W. (*See* BARTLETT, M. S.)
PRIESTLEY, M. B. The spectrum of a continuous process derived from a discrete process 517
RAO, B. RAJA. A further note on the geometry of linear estimation . . . 540
ROACH, S. A. The frequency distribution of the sample mean where each member of the sample is drawn from a different rectangular distribution 508
ROSS, A. S. C. (*See* DANIELS, H. E.)
SANKARAN, MUNUSWAMY. Approximations to the non-central chi-square distribution 199
SEBER, G. A. F. The non-central chi-squared and beta distributions 542
SNOW, BARBARA A. S. The distribution of Kendall's tau for samples of four from a normal population with correlation ρ 538
STEPHENS, M. A. The distribution of the goodness-of-fit statistic, U_N^2. I . . 303
STEPHENS, M. A. Random walk on a circle 385
SWAMY, P. S. On the amount of information suppled by truncated samples of grouped observations in the estimation of the parameters of normal populations 207
THOMPSON, Jr., W. A. and WILLKE, T. A. On an extreme rank sum test for outliers 375
VERDOOREN, L. R. Extended tables of critical values for Wilcoxon's test statistic 177
WATTERSON, GEOFFREY A. (*See* BARTKO, JOHN J.)
WEEKS, DAVID L. (*See* KAPADIA, C. H.)
WHITTLE, P. On the fitting of multivariate autoregressions, and the approximate canonical factorization of a spectral density matrix 129
WILLIAMS, J. S. Index selection and estimation from a single sample . . . 195
WILK, M. B., GNANADESIKAN, R. and HUYETT, MARILYN J. Separate maximum-likelihood estimation of scale or shape parameters of the gamma distribution using order statistics 217
WILLKE, T. A. (*See* THOMPSON, Jr., W. A.)
WISE, M. E. Multinomial probabilities and the χ^2 and X^2 distributions . . 145
ZELEN, M. (*See* KURKJIAN, B.)
